12:00 pm – 5:00 pm

Fee: \$40 / Lunch Provided

8201 E. Santa Ana Cyn, Anaheim 92808

Course description attached

Shoshin Ryu

Referee / Judge Certification Course

Please plan on a long day, as there are (4) disciplines which will be covered in a short period of time. It is recommended that plenty of time is allowed for travel before and after the course, because it is imperative that participants attend the entire course. In addition, please wear comfortable, and appropriate clothing because there will be time spent on the mats. Feel free to wear jujitsu attire. ****This is a Black Belt certification only****

The course will be difficult and participants should already have a familiarity with the (4) disciplines which will be covered during the course. The (4) disciplines, their techniques, and their terminology will include jujitsu, karate, sumo, and grappling/ground work. Please bring note taking material.

There are two sections which must be completed in order to receive certification. The first section is a written test consisting of rules and regulations for each discipline that was previously mentioned. The second section, is a practical application test where you will be critiqued on your area/mat control, knowledge and implementation of rules, and application of fundamental skills (such as movement and positioning).

Achieving certification within this course will allow you to referee / judge Shoshin Ryu sanctioned events. It is highly recommended that after completing this course you continue to improve your competencies in performing your duties as a referee/judge. Certificates will be presented at the conclusion of the course.

"For the lotus flower to fall is to rise to the surface."

Professor H.S. Okazaki
